

# Intenta S1000 people counter

## Technical datasheet

### Precise 3D-technology

- ✓ People counting with more than **98% accuracy**
- ✓ Separate counting of adults and children
- ✓ Group counting

### Perfectly suited for retail

- ✓ Multi-Sensor-Tracking for large retail spaces
- ✓ Universal connectivity to analytics software
- ✓ Verification of counting accuracy

### Reliable embedded system

- ✓ Anonymous data processing for GDPR compliance
- ✓ **Real-time** data output
- ✓ Future-proof due to regular feature updates

### Easy mounting and setup

- ✓ Suitable for low mounting heights
- ✓ **Automatic calibration** of installation height and tilt
- ✓ Remote Management
- ✓ Flush mount for discrete appearance available as an option

People Counting

Dwell-time Measurement

Wait-Queue detection

### Technical information

Size ( LxWxH )	132 x 91 x 35mm
Weight	350g
Materials	Aluminium, Plastic
Lens cover	Yes
Color	white (like RAL 9010)
IP Protection Code	IP40
Required illumination	min. 9 lux
Power consumption	max. 5W
Ethernet	1000MBit
Power supply	PoE Class 0 (IEEE 802.3af)
Air humidity	20-80% relative humidity
Operating temperature	0° ... 40°C
Storage temperature	-20° ... 70°C

### Mounting information

Mounting height	S1000-SLC: 2,20m - 3,50m S1000-MC: 2,50m - 5,00m
Coverage	up to 7.5m x 5.0m (37,5qm <sup>2</sup> )
Tilt	+/- 15°
Mounting position	Ceiling mount
Mounting bracket	included in sensor packaging
Flush mount	available as accessory

### Interfaces and functionality

Protocols	IPv4, HTTP, HTTPS, 802.1x, DNS, DHCP, NTP, Onvif (device discovery), FTP
Configuration	Password protected Web-GUI
Analysis options	up to 10 counting lines and 10 zones
Setup	automatic calibration
Customization	individual pre-configuration is possible
Safety features	Privacy mode, User management

Product features and technical specifications are subject to change without further notice.
