

Intenta S1000 people counter

The Retail Specialist

- People Counting
- Waiting Queue Detection
- Dwell-Time Measurement
- Capture Rate
- Conversion Rate

Your Benefits

Hardware & Software

- ✓ Large coverage decreases amount of sensors needed for full coverage of your store
- ✓ Discreet, compact Design
- ✓ No visible wires
- ✓ Integration of customized software functions possible

Integration

- ✓ Easy to integrate into your system due to powerful API (JSON-RPC)
- ✓ Fast setup without previous experience
- ✓ Failsafe boot and firmware update
- ✓ Surface-mounted installation without adapters
- ✓ Optics protection for minimal installation risks
- ✓ Maintenance-free

Service Partner

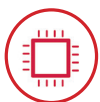

- ✓ Extensive service support from first installation to operation of large sensor systems
- ✓ First-hand development and production enables customisable system solutions

3D-Vision Technology

99% Counting Accuracy

Embedded System

Multi Sensor Tracking

Data Security

Intuitive Configuration

Power Supply

Power over Ethernet (IEEE 802.3af)

Power Consumption

max. 5W

Ethernet

1000MBit, RJ45

Mounting Height

2.20 – 5.0 m

Housing

Aluminium & Plastic

Protection Class

IP 20

Dimensions (L x W x H)

132 x 91 x 35 mm

Weight

approx. 350 g

WiFi

optional

Logical Protocols

IPv4, TCP, UDP, HTTP, HTTPS, DHCP, DNS, 802.1x
